

BACKGROUND CHECK SERVICES

JDP Volunteer Screening – Ensure Safety for everyone in your League

JDP proudly provides volunteer screening services to some of the largest Youth Sports organizations in the country, helping them to protect players, coaches, volunteers and more. JDP has the expertise to guide PONY Leagues in uncovering violations before allowing coaches and volunteers to work with children.

Necessity to protect players

If you're like most nonprofits and volunteer organizations, it's likely you have limited resources. And it goes without saying that you're incredibly grateful for the help you get. But to ensure the safety of your members — and those you serve — it's absolutely critical to perform thorough background checks on all of your volunteers and staffers.

It is highly recommended that volunteers are screened initially and on an annual basis so that new crimes are identified.

It is affordable

JDP has partnered with PONY Baseball and Softball to provide a quick, efficient and automated volunteer screening process at a reasonable price. Utilizing our proprietary database to provide near instant background information at a low cost, we deliver an affordable program with easy access for the leagues securely on the Internet.

Local background checks can be free, so why JDP?

Local background checks are certainly not discouraged; however, there are serious drawbacks to relying on local searches entirely. This is why a national criminal record database search is strongly recommended in addition to local county criminal searches.

Receive actionable information that complies with the Fair Credit Reporting Act (FCRA)

Local police departments might provide information that is not FCRA-compliant, such as arrest records, which cannot be used to make decisions with a volunteer. JDP Volunteer screening utilizes our national criminal file database and reports only actionable information to organizations as outlined by the FCRA. IMPORTANT: The information contained on this page is offered only as a courtesy, and is not intended as legal advice as to your hiring / volunteer policies and cannot be relied on as such. JDP disclaims any warranties, express or implied, with respect to the information set forth herein. You should consult your legal counsel regarding applicable legal obligations.

HOW TO SIGNUP

The JDP - PONY partnership provides access to industry-leading screening services provided to PONY at an exclusive, dramatically discounted price. For additional information and to signup please follow the Link below:

DESCRIPTIONS

ID Search

Provides information from a credit bureau on an applicant's current and past addresses based on an applicant's Social Security Number (SSN). Address History provides a comprehensive report with the

following:

- Full name and / or alternate names associated with information provided
- State & Date of Issuance
- Death Master Index

JDP National Criminal Search

Searches the following sources:

- Criminal Records (450m+),
- Sex Offender Registries
- OFAC
- FBI Terrorist List
- Proprietary Offender Data
- Department of Public Safety
- Administrative Office of the Courts
- Department of Corrections (DOC)
- Federal/State/Local Wanted Fugitive Lists.

The JDP National Criminal Search is continually updated with local and state level records from a variety of states across the US. However, not all states or jurisdictions provide or update records on a consistent basis or at all.

JDP National Sex Offender Search

The JDP NSOR searches for all 50 states and includes listings of registered sex offenders.
